

Jobs @ Optimal Satcom

Database Developers

About This Job Opportunity

Optimal Satcom is seeking Microsoft SQL Server database developers to be an integral part of our software development teams.

Your duties will include:

- **Database Design**, including database schema, SQL queries, stored procedures, triggers, and views
- **Database Tuning**, including profiling, indexing, and optimization of stored procedures and triggers
- **Database Administration**, including deploying databases, backing up/restoring databases, creating maintenance plans, automating notifications, active directory integration, etc.
- **High-Reliability Database Configurations** including replication, mirroring, and disaster recovery
- **Application Programmer Interface (API) Development** including implementation of web service, SQL, and program interfaces for saving and retrieve data from databases

Your Qualifications

To apply you must meet the following criteria:

- Three (3) – Five (5) Years of relevant experience working with Microsoft SQL Server or Oracle during database design and development
- A Bachelor's Degree in Computer Science or Computer Engineering from a reputable accredited institution
- Clean background check and references
- US Citizenship or Permanent Residence

Additional qualifications that will benefit your application:

- Experience working with Oracle and MySQL
- Experience working with LINQ interfaces
- Experience working with C#
- Working with DevExpress
- Microsoft Certifications

This job posting is for multiple full-time positions for work at our offices in Herndon, VA. We offer excellent pay commensurate with qualifications and experience, and a comprehensive set of benefits.
